

COVID-19 UPDATE

TEMAGAMI UPDATE #5 on COVID-19

March 24, 2020

The Temiskaming Health has confirmed its 1st positive case of COVID-19 in the District.

IT IS NOW CRITICAL THAT YOU STAY AT HOME TO BREAK THE CHAIN OF TRANSMISSION.

The Municipality of Temagami is continually monitoring COVID-19 and is working closely with the Timiskaming Health Unit and community partners to take preventative measures and respond appropriately.

WHEN SELF ISOLATING YOU NEED TO:

Stay home

- Do not use public transportation, taxis or rideshares.
- Do not go to work, school or other public places.
- Your health care provider or public health unit will tell you when it is safe to leave.

Limit the number of visitors in your home

- Only have visitors who you must see and keep the visits short.
- Keep away from seniors and people with chronic medical conditions (e.g. diabetes, lung problems, immune deficiency).

Avoid contact with others

- Stay in a separate room away from other people in your home as much as possible and use a separate bathroom if you have one.
- Make sure that shared rooms have good airflow (e.g. open windows).

Keep distance

- If you are in a room with other people, keep a distance of at least two meters and wear a mask that covers your nose and mouth.
- If you cannot wear a mask, people should wear a mask when they are in the same room as you.

Cover your coughs and sneezes

- Cover your mouth and nose with a tissue when you cough or sneeze.
- Cough or sneeze into your upper sleeve or elbow, not your hand.
- Throw used tissues in a lined wastebasket, and wash your hands. Lining the wastebasket with a plastic bag makes waste disposal easier and safer.
- After emptying the wastebasket wash your hands.

Wash your hands

- Wash your hands often with soap and water.
- Dry your hands with a paper towel, or with your own cloth towel that no one else shares.
- Use an alcohol-based hand sanitizer if soap and water are not available.

Wear a mask over your nose and mouth

- Wear a mask if you must leave your house to see a health care provider.
- Wear a mask when you are within two meters of other people.
