

# THE CORPORATION OF THE MUNICIPALITY OF TEMAGAMI

## BY-LAW NO. 99-467

**Being a by-law to rescind by-law #94-339 and to formulate a new plan for protecting property and the health, safety and welfare of the inhabitants of an emergency area.**

**WHEREAS**, the Province of Ontario has passed an Act which provides for the formulation and implementation of emergency plans (short title - The Emergency Plans Act, R.S.O. 1990, CE9) by the Council of a Municipality;

**AND WHEREAS**, this Act makes provision for the Head of Council to declare that an emergency exists in the municipality or in any part thereof and also provides the Head of Council with authority to take such action or make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area;

**AND WHEREAS**, the Act provides for the designation of one or more members of council who may exercise the powers and perform the duties of the Head of Council during his absence or his inability to act;

**AND WHEREAS**, the Act authorizes employees of a municipality to take action under the emergency plan where an emergency exists but has not yet been declared to exist;

**NOW THEREFORE**, the Council of the Corporation of the Municipality of Temagami enacts as follows:

1. That the Emergency Plan attached hereto as Schedule "A" of the By-law is hereby adopted;
2. That the Head of Council or designate alternate as provided in the plan is empowered to declare an emergency and implement the plan;
3. That certain appointed officials or their designated alternates as provided in the Schedule "A" plan are empowered to cause an emergency alert to be issued to members of the Municipal Control Group and to take action under the emergency plan where an emergency exists but has not yet been declared to exist; and
4. That annually, the Municipal Control Group will cause the emergency plan to be reviewed and to make such changes to its appendices as are considered appropriate while referring all other changes to Council for further review and approval.

**READ** a first, second and third time and finally passed this 14<sup>th</sup> of October, 1999.

## **DESCRIPTION OF MUNICIPALITY**

The Municipality of Temagami is located between North Bay (50 km to the South) and the Tri-towns (50 km to the North). The Municipality covers an area of 2400 sq. km with 4 distinct regions within its geographic boundaries. Crown land within the municipality, comprises 90% of the land base, is managed by the North Bay District of the Ministry of Natural Resources. The year round residential population of 1,000, swells to over 5,000 with summer visitors to the area.

The Lake Temagami area occupies a large portion of the west half of the municipality, and is tourism/summer recreational based, with the unique feature that almost all of the structures are located on islands. Lake Temagami is also home to the Temagami First Nation located on Bear Island, in the hub area of Lake Temagami.

The former Township of Temagami, geographically situated in the northeast corner of the new municipality, is comprised of the town centre (restaurants, mercantile, residential), Temagami north townsite, (residential, arena), an industrial park, (1 km north of town centre), Finlayson Provincial Park, and the Cassels Lake cottage Sub-division.

The southeast corner of the municipality is the Marten River area, comprising of the Marten River Provincial Park, 7 tourist lodges located along the highway corridors (Hwy. 11 & 63). There is a small year-round sub-division, 1 tourism lodge, and a restaurant/motel located just outside the municipality, but within the protection area of the Marten River fire department.

Intertwining and binding the entire area is the sparsely populated crown land within the municipality, used by both the recreational and resource based industries (Rabbit Lake cottage sub-divisions, hunt camps, etc.)

## **APPENDIX A**

### **EMERGENCY RESPONSE PLAN**

### **DANGEROUS GOODS ACCIDENTS**

#### **SITUATION**

The Municipality of Temagami has a large quantity of dangerous goods products travelling through the community by road and rail. Travelling on these routes are containers carrying dangerous goods, in solid, liquid and gaseous forms. The possibilities of either a single container or several containers rupturing and causing an event that could be dangerous to the people and the environment are extremely high. A dangerous goods accident through an accident or carelessness presents a real extremely high risk to the inhabitants of Temagami.

The Municipality of Temagami is responsible for dealing with any dangerous goods accident emergency affecting or likely to affect the people, property and environment within the Municipality of Temagami.

#### **GENERAL PLAN**

There are three phases to an emergency response involving a dangerous goods accident.

1. Initial Response
2. Emergency Response
3. Post Emergency Response

The initial response is from the police, fire and emergency medical services. This response will be strengthened in the Emergency Response phase, which will be supplemented by mutual aid. Provincial response teams and industrial response teams.

#### **RESPONSIBILITIES**

##### **Municipal Responsibilities**

1. Implementing the Emergency Plan in whole or in part as deemed appropriate utilizing all available resources.
2. Contacting CANUTEC and MOEE for guidance and assistance.
3. Directing and controlling all municipal emergency operations except for provincial and federal agencies.
4. Requesting Provincial/Federal assistance through the Solicitor General's Office - Emergency Measures Ontario.

##### **Provincial Responsibilities**

1. The Province of Ontario will provide prompt and coordinated response to the Municipality of Temagami when it requires assistance in emergency operations. The Province of Ontario may assume direction and control of an emergency operation when the emergency is of such magnitude that it is clearly beyond the capability of the Municipality of Temagami; additional resources may be provided from Provincial and Federal Agencies through the assistance of Emergency Measures Ontario.

**APPENDIX B**  
**EMERGENCY RESPONSE PLAN**  
**FOREST FIRES**

**SITUATION**

The Municipality of Temagami is situated in vast area of mixed forests where during the summer months the influx of people on vacation make the forest potentially vulnerable to fire. A forest fire through accident or carelessness presents a real and extremely high risk to the inhabitants of Temagami.

**GENERAL PLAN**

There are three phases to an emergency plan involving a forest fire.

1. Initial Response
2. Emergency Response
3. Post Emergency Response

This response will be strengthened in the Emergency response phase, which will be supplemented by mutual aid and Provincial response teams.

**RESPONSIBILITIES**

**Municipal Responsibilities**

1. Implementing the Emergency Plan in whole or in part as deemed appropriate utilizing all available resources.
2. Communicating with and coordinate emergency operations with the Ministry of Natural Resources.
3. Managing all municipal emergency operations in cooperation with provincial and federal agencies.
4. Requesting Provincial/Federal assistance through the Solicitor General's Office.

**Provincial Responsibilities**

The Province of Ontario will provide prompt and coordinated response to the Municipality of Temagami when it requires assistance in emergency operations. The Province of Ontario will assume control of the forest fire fighting operation and do so in cooperation with the Municipality. (Any forest fires, etc. within the Municipal boundaries are under Municipal jurisdiction and responsibility and the Ministry must keep us informed and work in collaboration with us. Elected Officers have the responsibility for public safety and property within the Municipality.)

**Federal Responsibilities**

Federal Agencies provide assistance through the Solicitor General's office as necessary and if requested. The primary agencies and their responsibilities are:

**EMERGENCY PREPAREDNESS OF CANADA** - assist and expedite the procurement of out of province/country resources; and coordinate assistance of federal agencies.

**NOTE:** All municipal requests for either Provincial or Federal resources must be first directed to the Solicitor General-Emergency Measures Ontario.

**ATMOSPHERIC ENVIRONMENT SERVICE** - provides special weather forecast services and predicts dispersion pattern of dangerous airborne emissions.

**ENVIRONMENT PROTECTION SERVICES** - provide technical advice and assist in the on and off site assistance by contacting appropriate industrial resources.

**TRANSPORT CANADA INFORMATION AND EMERGENCY CENTRE (CANUTEC)**- provide technical information on dangerous goods and arrange on site assistance by contacting appropriate industrial resources.

## **Part I**

### **EMERGENCY PLAN**

#### **PREAMBLE**

This plan has been prepared to provide a prompt and coordinated response to all types of emergencies affecting the Municipality of Temagami.

#### **AUTHORITY**

The Municipality of Temagami has the authority under the Emergency plans Act, R.S.O. 1983 Sec. 3(1-4 inclusive)

- To declare a state of Emergency
- To exercise extreme measures to protect life, property and avoid social disruption
- To protect Municipal Employees from liabilities
- To spend monies to manage emergencies

#### **INTRODUCTION**

An emergency is defined as a situation (or threat of a situation) which, by its nature or magnitude, affects or threatens the health, safety, welfare and property of a community, and requires a controlled and coordinated response by a number of agencies.

While many emergencies could occur, those most likely to occur are

Forest Fires  
Chemical Spill  
Ice/Snow Storms  
Tornadoes/Wind Storms  
Long term closure of Highway #11  
Pipeline Explosion

#### **REQUESTS FOR ASSISTANCE**

NOTE: Provincial/Federal assistance resources must first be directed through Emergency Measures Ontario.

Assistance may be requested from:

Ministry of Natural Resources  
CANUTEC / Ministry of Environment  
Ontario Hydro  
Ministry of Transportation  
Ontario Northland  
TransCanada Pipelines  
UnionGas and other agencies as applicable  
Temiskaming Health Unit

#### **AIM**

The aim of this plan is to make provision for the extraordinary arrangements and measures that may have to be taken to protect the health, safety, welfare and property of the inhabitants of the Municipality of Temagami when faced with an emergency.

## **PART II**

### **NOTIFICATION SYSTEM, DECLARATION, EMERGENCY OPERATIONS CENTRE**

#### **DECLARATION OF EMERGENCY**

Head of Council or designate is responsible for declaring a State of Emergency.

Upon such declaration, he/she will notify:

- |                                  |                                 |
|----------------------------------|---------------------------------|
| (a) Chief Administrative Officer | (b) Fire Chiefs)                |
| (c) Ontario Provincial Police    | (d) Public Works Superintendent |
| (e) Ambulance Service            | (f) Emergency Measures Ontario  |

#### **NOTIFICATION SYSTEM**

Upon receipt of a warning of a real or potential emergency, the following community officials (or their designated alternates) may activate the notification system:

The Mayor  
CAO of the Municipality  
Police  
Fire Chief  
Public Works Superintendent  
Ambulance Service

Upon being notified, it is the responsibility of each member of the control group to notify their staff and/or volunteer organizations, and assemble at the emergency operations centre.

Where a threat of an impending emergency exists, the Control Group will be notified and placed on alert.

The emergency notification list and procedure is attached as Annex 'A'.

#### **ACTION PRIOR TO DECLARATION**

When an emergency exists but has not yet been declared to exist, community officials take such action(s) under this emergency plan as may be required to protect lives and property under the authority of The Council of the Municipality of Temagami.

The form to be completed when declaring an emergency is attached at Annex B.

An emergency may be declared terminated at any time by:  
Mayor or Designate/Premier  
Council

Upon termination of an emergency the following will be notified.

- |                       |                                 |
|-----------------------|---------------------------------|
| (a) CAO               | (b) Fire Chief                  |
| (c) OPP               | (d) Public Works Superintendent |
| (e) Ambulance Service | (f) Emergency Measures Ontario  |

## **EMERGENCY OPERATIONS CENTRE (EOC)**

The Control Group will report to the Emergency Operations Centre (EOC) located in the Board Room on the main floor of the Welcome Centre (Municipal Office).

The layout and equipment of the EOC are detailed at Annex C.

## **RECOVERY**

### **GENERAL**

1. The recovery stage commence when the emergency disaster has been terminated and the immediate actions required for life saving and property protection are generally complete. Short term recovery consist of restoring at least to minimal operation standards necessary for life support systems and community services. Long term recovery from a major disaster may take years to restore the community life to normal. Funding support during the recovery phase may be accessible through the Ministry of Municipal Affairs.
2. Damage Estimation –Arrangements for the inspection of damages caused directly or indirectly from the emergency disaster shall be assessed as soon as practicable and all claims processed through proper channels to the appropriate authorities. The Chief Administrative Officer shall coordinate these estimations.

### **PART III**

#### **CONTROL GROUP RESPONSIBILITIES**

##### **CONTROL GROUP**

The emergency response will be directed and controlled by elected and/or appointed officials who are responsible for providing the essential services necessary to minimize the effects of an emergency on the community.

This group is known as the Emergency Control Group (ECG), and its members are:

- |                               |                                  |
|-------------------------------|----------------------------------|
| (a) Mayor                     | (b) Chief Administrative Officer |
| (c) Ontario Provincial Police | (d) Fire department Chief        |
| (e) Ambulance Service         | (f) Public Works Superintendent  |
| (g) Social Services Official  |                                  |

Other persons added to the Emergency Control Group to provide assistance and/or technical information may include:

- (a) Ministry of Natural Resources
- (b) Temiskaming Health Unit
- (c) Emergency Measures Ontario

The Emergency Control Group may function with only a limited number of persons, depending upon the nature of the emergency. While the ECG may not require the presence of all its members, all members of the ECG must be notified.

When an emergency involves evacuation to another community, a liaison officer should be sent to the receiving community.

A person will be appointed to act as liaison officer, and will remain in contact with the Emergency Operations Centre.

##### **BUSINESS CYCLE**

Members of the Control Group will gather at regular briefings to inform each other of actions taken and problems encountered. The Emergency coordinator will establish frequency of meetings and agenda items. Meetings will be kept as brief as possible, thus allowing members to carry out their individual responsibilities.

Maps and status boards will be prominently displayed and kept up to date by the Emergency Operations Coordinator.

He/she will ensure that:

1. The EOC is activated and communications are established with the participating agencies
2. Provide direction to EOC staff required in support of the EOC and ensure proper setup and operation of the EOC
3. Establish liaison and communications with the provincial response/support team(s) as required

## **GROUP RESPONSIBILITIES**

The actions or decisions that the members of the Control Group are likely to be collectively responsible for include:

- Designate all or part of the community as an emergency area
- Authorize expenditures to implement the emergency plan
- Discontinue utilities or other services - public and private –when they constitute a hazard
- Disperse crowds
- Arrange accommodation and “welfare” for evacuees
- Call in community employees and equipment
- Arrange for services and equipment from volunteer agencies and private contractors not normally under community control
- Ask for help from neighboring communities and other levels of government

## **INDIVIDUAL RESPONSIBILITIES**

### **Head of Council**

The head of Council is responsible for:

- (a) Declaring Emergency
- (b) Notifying Council of Emergency
- (c) Keeping Council informed
- (d) Providing ECG with such direction from council as may be required.

### **Chief Administrative Officer**

The Chief Administrative Officer (CAO), is the Emergency Coordinator, and is responsible for:

- (a) Activating the Emergency Control Group
- (b) Activating the EOC and establishes communications with the participating agencies
- (c) Providing direction to the EOC staff required in support of the Emergency Control Group and ensures proper setup and operation of the EOC.
- (d) Establishing liaisons and communications with the Provincial Response/Support Team(s) as required
- (e) Upon warning of an emergency or disaster activate the Emergency Plan in whole or in part
- (f) Appointing a Site Manager to manage the emergency site(s)
- (g) Gathering, processing and disseminating information for the Emergency Control group
- (h) Identify the scope of the emergency, response required and how the response shall be carried out
- (i) Assume control of the emergency operations in accordance with the Emergency Plan and the Head of Council or designate and give general direction
- (j) Contacting Emergency Measures Ontario prior to requesting Federal assistance
- (k) When authorized by the Head of Council implement evacuation, reception and reentry arrangements
- (l) Authorize Mutual Aid arrangements and other support services as required
- (m) Provide updated situation reports for the Head of Council, Council and the Emergency Response agencies
- (n) Provide appropriate direction and updated reports for the Public Media Relations Officer or designate with respect to the authorization and release of official statements
- (o) Arrangements, through the department heads, for the evaluation of the Emergency response operations and identification of deficiencies in procedure and equipment
- (p) Provide an after action report for the Mayor and Council

### SENIOR POLICE REPRESENTATIVE

The Senior Police Representative is responsible for:

- (a) Responding to the emergency with sufficient personnel to undertake security, crowd control and traffic control
- (b) Establish perimeters, both inner and outer, for the emergency
- (c) Implement the controlled evacuation of buildings, or residential areas in conjunction with any other agency deemed appropriate and as authorized by the Emergency Control Group.
- (d) Provide assistance to the coroner
- (e) Maintain a log of operations and actions taken, and
- (f) Provide a liaison representative to the Emergency Control Group.

### SENIOR FIRE REPRESENTATIVE

- (a) Communication with the Emergency Operations Centre on the status of the Emergency Site(s). The status reports should include progress made, problems encountered and assistance required
- (b) Coordinate site management as designated
- (c) Coordinate fire ground and rescue operations; coordinate with MNR if appropriate
- (d) Maintain a log of operations and actions taken
- (e) Provide liaison with CANUTEC (Transport Canada) and Ministry of Environment in any emergency involving dangerous goods
- (f) Initiate mutual aid arrangements, and
- (g) Provide assistance on evacuation of people

### SENIOR PUBLIC WORKS REPRESENTATIVE

- (a) The Township Works Superintendent shall report to the EOC as soon as practicable after the emergency plan has been initiated and the response has been assessed. The Works Superintendent shall make such reports to the CAO to take the most appropriate course of action
- (b) Provide municipal equipment and personnel as required
- (c) Provide barricades and lighting as is necessary to secure the incident area
- (d) Disconnect services that would represent a hazard and as is authorized
- (e) Provide assistance in the cleanup operations and repair damages where there is a municipal responsibility
- (f) Provide or make arrangements for alternate water supplies when required and restore essential services
- (g) Communication with the utility services i.e. Hydro, Telephone, etc., and
- (h) Maintain a log of operations and actions taken

### SOCIAL SERVICES

The Chair of Social Services will liaise with the manager of the Non-Profit Housing Corporation and will act as the Senior Social Services representative in the event of an emergency, and is a member of the Emergency Control Group. In the event of an emergency, Social Services will provide essentials and will be responsible for the following:

- (a) Reporting to the EOC
- (b) Provide a list of emergency agencies and volunteer organizations which will assist in:
  - Emergency feeding
  - Emergency lodging
  - Emergency clothing
  - Emergency registration and inquiry
  - Personal services
- (c) Provide emergency communications
- (d) Liaise with the volunteer organizations directly involved in Social Services, and
- (e) Provide support required for and during evacuation.

### EMERGENCY MEDICAL SERVICES

The responsibilities of the Emergency Medical Service (Ambulance Manager or designate) are:

- (a) Activate sufficient personnel and equipment as deemed appropriate to handle the emergency response
- (b) Alert surrounding hospital as to the degree of the emergency to best prepare them for receiving the sick and injured
- (c) Communicate with the local Health Office to initiate any warning due to contamination or special precautions
- (d) Provide emergency transportation for the injured
- (e) Set up a triage area where injuries may be assessed and transportation can be arranged depending on the degree of severity, and
- (f) Maintain a log of actions taken

### SENIOR HEALTH SERVICES REPRESENTATIVE

Ambulance manager will act as the Senior Health Services Representative in the event of an emergency, will be a member of the control Group, and is responsible for:

- (a) Communications with the Emergency Operations Centre on the status of the Emergency Site(s). The status reports should include progress made, problems encountered and assistance required
- (b) Coordinate site management as designated
- (c) Coordinate triage operations
- (d) Maintain a log of operations and actions taken, and
- (e) Provide transportation for the injured person(s) as required

### PUBLIC INFORMATION OFFICER

The Municipal Receptionist will act as the Public Information Officer during an emergency.

He reports to the CAO and is responsible for dissemination of news and information to the media and the community.

A detailed public information plan is attached.

### LIASON OFFICER(S)

A person or persons will be appointed by the Emergency Coordinator and will proceed to the evacuation site(s).

The Liason Officer(s) will be responsible for:

- (a) Maintaining a list of evacuees and their locations.
- (b) Working with the appropriate officers of the receiving/sending communities.
- (c) Maintaining communications with the Emergency Control Centre.
- (d) Keeping evacuees and their families informed and responding to and redirecting inquiries to persons who may be located in evacuation and reception centres.
- (e) Assisting Social Services Representative during evacuations.

## **HEALTH UNIT INVOLVMENT IN COMMUNITY DISASTERS**

During an emergency situation or a disaster, the Health Unit will have some responsibility in the following areas:

1. *The monitoring of water supplies:* (in conjunction with Ministry of Environment and Energy) including approval of sources, advice on treatment methods, monitoring to prevent pollution of selected sources, and sampling of the distribution system to ensure potable supply.
2. *Food sanitation:* including ensuring the sanitary control of food supplies at the point of supply, during distribution, packaging and processing, providing advice on potentially unsafe or contaminated foods, and providing information on mass feeding including storage, food handling, personal hygiene and refuse disposal.
3. *Evacuation centres:* in the event of mass evacuation to a central location, the Health Unit will monitor the provision of sanitary facilities, the safety of water supply and the food service system. The Health Unit will also provide surveillance for communicable disease outbreaks.
4. *Waste disposal:* (in conjunction with Ministry of Environment and Energy) including advice on the disposal of all sanitary waste, body waste and garbage including the disposal of liquid waste. The Health Unit can approve methods and sites for sewage disposal during emergency situations.
5. In the event of mass casualties, the Health Unit will monitor the situation to ensure early and sanitary disposition of human remains in order to minimize the spread of disease.
6. Information and advice on pest control, personal sanitation, emergency cleanups and disinfection, waste disposal and food and water safety will be provided to the public as required.
7. The Health Unit will provide any needed immunization (this is rarely necessary).
8. The Health Unit will provide advice to the public and to local physicians with regards to health consequences, both acute and long term, of exposure to spills of toxic chemicals.
9. Issuing orders to mitigate or eliminate health hazards.

## **PART IV**

### **SUPPORT STAFF**

The following persons may be required to provide assistance and support to the Control Group:

- (a) Municipal Office Staff
- (b) Municipal Public Works Staff
- (c) Fire Dept. Staff
- (d) Ambulance Staff

### **SUPPORT STAFF**

- Declares a State of Emergency
- Ensure Council is kept informed and consulted on action to be taken.
- Ensure Council is kept informed
- Coordinate feeding & rest arrangements for Control Group
- Set up and maintain EOC
- Coordinate offers of, and appeals for, volunteers
- Ensure volunteer registration forms are completed
- Ensure telephone and radio systems function effectively, and arranging for repair and maintenance if necessary
- Record decisions made by Control Group
- Handle inquiries from the public
- Provide identification cards to Control Group
- Maintain records of expenses
- Ensure prompt payment of settlement of all invoices and claims incurred during the emergency
- Maintain and update a list of vendors
- Typing, photocopying, etc.

## **PLAN MAINTENANCE AND REVISION, TESTING AND INTERNAL PROCEDURES**

### **Plan Maintenance and revision**

This plan will be reviewed every term of Council (3 yrs.).

Administrative revisions (for example telephone numbers) may be authorized by the CAO.

Substantial changes to the plan must be approved by Council, upon recommendation of the Protection to Persons and Property Committee.

### **Testing of Plan**

This plan was tested on May 4, 1999.

### **Internal Procedures**

Each service involved with this emergency plan will prepare emergency procedures or guidelines outlining how it will fulfill its responsibilities during an emergency.

Each service will ensure that it designates a staff member to maintain and revise its own emergency procedures or guidelines.

Mayor  
CAO  
OPP  
Fire Chiefs)  
Ambulance Service  
Public Works Superintendent

The following procedure will be used to notify the Emergency Control Group:

- Telephone notification by Mayor/CAO as required, call alternate for each.
- If telephone communication is out, notify OPP to contact persons.

**ANNEX B**

**DECLARATION OF AN EMERGENCY**

I, \_\_\_\_\_ (name) \_\_\_\_\_ (title)

of declare that an \_\_\_\_\_  
(name of community)

emergency exists in the area of:

\_\_\_\_\_  
\_\_\_\_\_  
(define area using street names and/or boundaries)

in the community of \_\_\_\_\_

due to:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
(explain the emergency situation)

DATED this day of, \_\_\_\_\_

\_\_\_\_\_  
(signature of Head of Council)

\_\_\_\_\_  
(name of Head of Council, printed or typed)

## ANNEX C

### EMERGENCY OPERATIONS CENTRES

The Emergency Operations Centers are located at:

PRIMARY LOCATION: Municipal Offices - Lakeshore Drive

For access contact CAO at: 705-569-3421 evenings at 705-569-2853

ALTERNATE LOCATION: Temagami Community Centre - Temagami North

For access contact Paul Allair  
or CAO 705-569-3421 evenings at 705-569-2736

### EOC EQUIPMENT

The EOC locations have the following equipment:

#### Primary

Load Control telephone lines  
Radio for Public Works (fire dept.)  
Main Boardroom for EOC  
Adjoining room for Communications Officer  
Area for support staff  
Public Information Area

#### Alternate

Load Control telephone lines

### EOC PROCEDURES

Emergency Control Officer is responsible for ensuring that the EOC is set up.

## ANNEX D

### EMERGENCY EVACUATION

#### NOTIFICATION AREAS

In the event of a major Forest Fire, areas to be notified would include Temagami North and Temagami village, Cassels & Rabbit Lakes, Temagami Lake and Marten River. Residents, campers and canoe trippers would also have to be reached.

#### EVACUATION ROUTES

1. Temagami North:
  - Highway #11 and/or rail evacuation would be preferred
  - Net Lake to Cassels/Temagami by boat or snowmachine if highway and railway blocked
  - Net Lake/railway to Andorra Lodge if Hwy. #11 not available.
2. Temagami Village:
  - Highway #11 north or south preferred option
  - Railway north or southO'Connor Drive (if railway crossing blocked/unusable):
  - By Steven's Road to Cassels Sub-Division, and on to Net Lake/Temagami North if necessary
3. Cassels & Rabbit Lakes:
  - Exit to Highway # 11 through village or south to Rabbit Lake road and Hwy. #11
  - To Net Lake/Temagami North
4. Temagami Lake Area:
  - Lake Temagami Access Road
  - By boat or snowmachine down lake to Temagami Village
  - Other lake access points as necessary
5. Marten River Area:
  - Highway # 11 north or south
  - Highway #64 to Field/Sturgeon Falls. May also access through Provincial Park

For all areas the preferred route would be Highway #11.

#### RALLYING POINTS

- Temagami Public School
- Old Mill Site in Cassels Subdivision
- Community Centre - Temagami North (Arena)
- Parking Area, Temagami Lake Access Road - Lake Temagami

Public should be made aware of these locations and persons appointed to coordinate at each position.

## EMERGENCY EXIT ROUTES

### Route south of Temagami via Trans Canada Pipeline

#### Requirements:

- Route to follow the Pipeline south from O'Connor Drive, crossing the railroad tracks north of the MTO yard. At this point the route will follow the old road west to Highway #11. Total distance from O'Connor drive to the highway is approximately 1 km.
- One 16 foot culvert and 3 loads of gravel will be required at the creek flowing into Caribou Lake
- 26 pieces of 6 x 6, 16 feet long lumber and approximately 8 loads of gravel will be required at the railroad crossing north of the MTO yard.
- It should be noted that this route would be more suited for H ton traffic. It must also be recognized that due to the route following the Pipeline that only small machinery is to be used along this section and only after consultation with officials from Pipeline. Contact with the ONR would be mandatory prior to any work with the railway right of way.

### Route Temagami North

- Temagami North (Townsite) does not have many options for access due to the location of Net Lake and the rough terrain to the north of the crossing. The one location that may be available would be south through the Trailer Park and across the property currently owned by Mr. John Larente.
- The crossing would require 26 pieces of 6 x 6 lumber - 16-foot long and approximately 4 loads of gravel.

## CONSIDERATIONS BY EOC FOR EVACUATION

- > Who will go where
- > How do we control transport congestion on Hwy. 11
- > Who will need transportation
- > Reception and evacuation plan for pets & livestock:
  - could involve feeding & care or removal of animals from area.
- > Who will pay for feeding & bus costs for evacuation
- > At reception sites, washroom facilities, showers, food preparation must be available.
- > Check with local organizations eg. Lions, Friendly Group, etc. re persons needing special assistance.
- > Registration area persons (Liaison Officers) will be required in evacuation to list who is where and to answer questions.
- > How many persons will potential need accommodation. (Age groups, non-ambulatory and other special needs could be catalogued).
- > Traffic control.
- > Day & Night populations.
- > Approximate populations for each area.
- > Vehicles for transporting those who do not have other means of transport.
- > Control mechanism for proper evacuation.

## ANNEX E

### EMERGENCY PUBLIC INFORMATION PLAN

The Municipal Receptionist will inform the public of events as authorized by Emergency Control Group and will set up regular information sessions as necessary with media.

#### OBJECTIVES

1. Inform the Public of the Emergency Plan and outline briefly where current information may be obtained during an Emergency.
2. During an Emergency, the Public Information Officer will keep the Public and Media informed and up-to-date on the state of the Emergency.
3. Inform various agencies who may have potential involvement of the Emergency Plan.
4. Copies of the approved Emergency Plan (excluding the telephone directory) will be sent to those persons and agencies as deemed appropriate by Council and the CEO.

#### MESSAGES

1. When the Emergency Plan has received Council approval, a brief notification will be given to all ratepayers and affected agencies. This notification will include;
  - (a) An Emergency can be declared only by the Mayor or his designate.
  - (b) The location of the primary and secondary Emergency Control Centre.
  - (c) A contact telephone number and location for Public Information Centre.
  - (d) Advice that the Public should refrain from gathering at the site of the emergency and at the Emergency Control Centre.
  - (e) In the event of a major emergency, various radio and TV stations within the reception area will be requested to broadcast appropriate information for public knowledge and safety.
  - (f) Should evacuation become necessary, neighbouring communities will be contacted.
  - (g) Inform public of rallying and evacuation points.

#### IMPLEMENTATION

1. When the Emergency Plan has been approved by Council, inform the public about the Plan by direct mailout, notices in the Temagami Times and the Temagami Talker.

#### PRIMARY AUDIENCE

All property owners and residents  
Ontario Provincial Police  
Ambulance Service  
Ontario Hydro  
Union Gas  
Ontario Northland Railway  
Local agencies

Emergency Measures Ontario  
Temagami Fire Dept.  
Ministry of Natural Resources  
TransCanada Pipelines  
Ministry of Transportation  
ONTel  
Media

## SECONDARY AUDIENCE

Surrounding Municipalities (especially for assistance and potential evacuation) and non-residents in case of highway blockage.

2. Regular briefings during an Emergency will be coordinated by the Public Information Officer for:
  - (a) the Residents
  - (b) the Media
3. The Public Information Officer will ensure that appropriate information as approved by the Emergency Coordinator is forwarded to radio and TV stations and newspapers as deemed necessary.

## ANNEX G

### Y2K

#### AIM

The aim of this annex is to make provisions for the extraordinary arrangements and measures that may have to be taken to protect the health, safety, and welfare of the inhabitants of Temagami when faced with an emergency occurring during the millennial date change or other key dates including:

December 31, 1999 - January 1, 2000 (century date change)  
February 29, 2000 - March 1, 2000 (uncommon leap year)

This Annex supplements the preceding community emergency plan which sets out in greater detail the roles and responsibilities of community officials during any emergency.

#### EMERGENCY NOTIFICATION SYSTEM

Upon receipt of a warning of a real or potential emergency, any member of the Emergency Control Group (ECG) may initiate the emergency plan's notification system (on page 9) either activating the emergency plan or putting the ECG on standby.

In the event the normal emergency notification system is disrupted, ECG members will be contacted using the system established in the plan.

#### EMERGENCY CONTROL GROUP

Emergency response and recovery will be directed and controlled by officials who are responsible for providing essential services necessary to minimize the effects of an emergency on the community. The ECG will be assembled (or on-call) during the millennial date change and other key dates.

The ECG will ensure that each service critical to public safety can be contacted quickly in order to ensure the service is implementing a contingency plan if required and to monitor the progress of that service. The updated list of contracts is found in the Emergency Directory starting on page 18.

#### EMERGENCY-INFORMATION

During the millennial date change and other key Y2K dates, the emergency information plan may be implemented at the direction of ECG. The Community's Emergency Information Coordinator and staff will implement the plan in order to provide information or instructions to the public.

#### Y2K CONTINGENCY PLANS

Each service involved with this emergency plan and providing a service critical to public safety requires Y2K Contingency Plans to deal with events which will have a direct impact on that organization.

Each service also requires functional emergency operating procedures outlining how it will fulfil its responsibilities during any emergency.
